ARCHIVES OF
Biochemistry and Biophysics

Volume 106 • 1964

Executive Editors

C. H. W. Hirs
B. L. Horecker
W. D. McElroy
H. S. Mason
F. F. Nord
Earl R. Stadtman
H. Theorell

Editors

Bruce Ames
Gilbert Ashwell
Aaron Bendich
Karl Folkers
David E. Green
François Gros
D. J. Hanahan
Osamu Hayaishi
Harvey Itano
Herman M. Kalckar
Ephraim Katchalski
Seymour Kaufman
Walter Kauzmann
Irving M. Klotz
Luis F. Leloir

Contents of Volume 106

Louis Chaiet and Frank J. Wolf. The Properties of Streptavidin, a Biotin-Binding Protein Produced by *Streptomycetes* 1

Robert A. Lazzarini and Anthony San Pietro. A Nonspecific Pyridine Nucleotide Diaphorase From Spinach 6

Jorge R. Pasqualini. 6β-Hydroxycorticosterone in Human Urine 15

G. A. Lanzani and E. Galante. Peroxidase Activities from Wheat Embryo Ribosomes 20

P. Nicholls. Observations on the Oxidation of Cytochrome c 25

Sjoerd L. Bonting, Leo L. Caravaggio, Mel Rose Canady, and Naomi M. Hawkins. Studies on Sodium-Potassium-Activated Adenosinetriphosphatase. XI. The Salt Gland of the Herring Gull 49

Leonard B. Kirschner. Fluoride Inhibition of Sodium Extrusion from Swine Erythrocytes and Its Metabolic Correlates 57

W. W. Luchsinger and A. W. Richards. The Mechanism of Action of Malt β-Glucanases. V. Separation of the β-Glucanases of Germinated Barley by Dialysis and Ion-Exchange Chromatography on Phosphorylated Cellulose 65

Shih-Chieh Chen and W. W. Luchsinger. The Mechanism of Action of Malt β-Glucanases. VI. Hydrolysis of Barley β-D-Glucan by Endo-β-Glucanases from Germinated Barley 71

Stanley P. Leibo and Raymond F. Jones. Freezing of the Chromoprotein Phycoerythrin from the Red Alga *Porphyridium cruentum* 78

Arthur B. Krupnick, Carol M. Casa, and Harris Rosenkrantz. Nucleic Acid Content in Nutritional Muscular Dystrophy 89

F. Schlenk and D. J. Ehninger. Observations on the Metabolism of 5′-Methylthioadenosine 95

R. S. Criddle. Dissociation and Separation of Gamma Globulin into Subunits 101

Darwin J. Prockop, Paul S. Ebert, and Bennett M. Shapiro. Studies with Proline-3,4-H^3 on the Hydroxylation of Proline during Collagen Synthesis in Chick Embryos 112

Bernard E. Cabana, Jeanne C. Prokesch, and Gordon S. Christiansen. Study on the Biogenesis of Catecholamines in Pheochromocytoma Tissue Culture 123

Alan Winter. Evidence for the Occurrence of Indolepyruvic Acid *in Vivo* 131

Hyogo Sinohara and Howard H. Sky-Peck. The Effects of Estradiol on Acid Mucopolysaccharide Metabolism in Oophorectomized Rats 138

S. J. Norton. Purification and Properties of the Prolyl RNA Synthetase of *Escherichia coli* 147

J. L. Fairley and D. E. Wampler. The Effects of Aminobutyrate and Propionate on Arginine Levels in Neurospora 153

O. W. Neuhaus, R. Havez, and G. Biserte. The Identification of Rat Serum Proteins by Zone and Immunoelectrophoresis 159

John J. Kelley. Purification and Properties of a Salt-Soluble Protein From Wheat Flour 167

H. E. Wright, Jr., W. W. Burton, and R. C. Berry, Jr. Detection of Free Thymine in Aged Burley Tobacco 173

Edward A. Brunner and M. A. Spirtes. Anaerobic Glycolysis of Slices and Homogenates of Liver From Thyroxine Injected Rats 176

N. M. Papadopoulos. Nicotine-1′-Oxide: A Metabolite of Nicotine in Animal Tissues 182

George Kaldor and Joseph Gitlin. Studies on the NH_4^+-Activated ATPase of Myosin A 186

M. E. Levitch and E. R. Stadtman. A Study of the Biosynthesis of Phenazine-1-Carboxylic Acid 194
Irving I. Geschwind and Choh Hao Li. Effects of Alkali-Heat Treatment on β-Melanocyte-Stimulating Hormone 200
Joseph D. Robinson. Correlates of Structural Changes in Liver Microsomal Suspensions 207
N. Frontali and A. Grasso. Separation of Three Toxicologically Different Protein Components from the Venom of the Spider *Latrodectus tredecimguttatus* 213
Herschel K. Mitchell and Kenneth D. Lunan. Tyrosine-*O*-Phosphate in *Drosophila* 219
L. C. Costello and W. Smith. The Comparative Biochemistry of Developing *Ascaris* Eggs. V. Changes in Catalase Activity During Embryonation 223
Elemer Mihalyi, Parker A. Small, Jr., and Juanita P. Cooke. The Amino Acid Composition of Bovine Fibrinogen 229
E. W. Bingham and C. A. Zittle. Ribonuclease of Bovine Milk: Purification and Properties 235
R. A. Alarcon. Isolation of Acrolein from Incubated Mixtures of Spermine with Calf Serum and its Effects on Mammalian Cells 240
T. Yonetani and H. Theorell. Studies on Liver Alcohol Dehydrogenase Complexes. III. Multiple Inhibition Kinetics in the Presence of Two Competitive Inhibitors 243
H. Theorell and T. Yonetani. Studies on Liver Alcohol Dehydrogenase Complexes. IV. Spectrophotometric Observations on the Enzyme Complexes 252
S. Shibko and A. L. Tappel. Distribution of Esterases in Rat Liver 259
E. A. Hosein and P. Proulx. Acetylcholine-like Activity in Subcellular Particles Isolated from Rat Brain 267
L. J. Dieterman, C-Y. Lin, L. M. Rohrbaugh, and S. H. Wender. Accumulation of Ayapin and Scopolin in Sunflower Plants Treated with 2,4-Dichlorophenoxyacetic Acid 275
M. Bárány, E. Gaetjens, K. Bárány, and E. Karp. Comparative Studies of Rabbit Cardiac and Skeletal Myosins 280
Paul F. Guehler, L. Peterson, H. M. Tsuchiya, and R. M. Dodson. Microbiological Transformations. XIII. Composition of the Wax Formed by *Euglena gracilis* 294
H. Nakagawa, R. H. Lindsay, and P. P. Cohen. Composition and Labeling Patterns of "Free" and Protein Amino Acids in *Rana catesbeiana* Tadpoles and Frogs 299
D. E. Boggs and H. A. Waisman. Biochemical Correlates in Rats with Phenylketonuria 307
M. S. Gibson. Incorporation of Pyruvate-C^{14} into Ethylene by *Penicillium digitatum* Sacc 312
Koichiro Aoki and Joji Hori. Effect of Metallic Cations on Human Serum: Study by Starch-Gel Electrophoresis. I. Effect of Pb^{++}, Cu^{++} and NH_4^+ 317
Yuji Inada, Ayako Matsushima, Masako Kamata, and Kazuo Shibata. States of Amino Acid Residues in Proteins. IV. Bound Tyrosine and Tryptophan Residues in Pepsin as Observed by Difference Spectrophotometry 326
A. Kövér, M. Szabolcs, and A. Csabai. Isolation of a Cholinesterase Fraction from Fish Muscle (*Amiurus nebulosus*) and Some of its Physicochemical Properties 333
Emil Athineos, John C. Kukral, and Richard J. Winzler. Biosynthesis of Glycoproteins. II. The Site of Glucosamine Incorporation into Canine Plasma α-1 Acid Glycoprotein 338
Tara Rathlev and Charles J. Pfau. The Nucleic Acids from Reiter's Treponemes 343
J. C. Robinson and J. E. Pierce. Studies on Inherited Variants of Blood Proteins. III. Sequential Action of Neuraminidase and Galactose Oxidase on Transferrin $B_{1-2}B_2$ 348
Wesley D. Wicks and Claude A. Villee. Studies on the Course of Action of Testosterone Propionate on the Rat Seminal Vesicle 353

T. Yamano. An Electron Spin Resonance Study of the Semiquinonoid State of D-Amino Acid Oxidase 360
T. Murata, T. Minamikawa, T. Akazawa, and T. Sugiyama. Isolation of Adenosine Diphosphate Glucose from Ripening Rice Grains and its Enzymic Synthesis 371
Saswati P. Bag, Quintus Fernando, and Henry Freiser. Formation Constants of Certain Metal Complexes of Thioguanine 379
Josip P. Kratohvil, Gjuro Deželić, and Nada Deželić. On the Refractive Index Increment of Bovine Plasma Albumin at Low Concentrations 381
M. Anthony Verity, R. Caper, and W. Jann Brown. Spectrofluorometric Determination of β-Glucuronidase Activity 386
Chung Wu. Glutamine Synthetase. III. Factors Controlling Its Activity in the Developing Rat 394
Chung Wu. Glutamine Synthetase. IV. Its Formation in Rat Liver Following Partial Hepatectomy and During Repletion 402
Fritz Reusser. Electrophoresis and Immunology of Purified Bovine Growth Hormone 410
M. Tabachnik. Thyroxine-Protein Interactions. III. Effect of Fatty Acids, 2,4-Dinitrophenol and other Anionic Compounds on the Binding of Thyroxine by Human Serum Albumin 415
P. M. Nair and L. C. Vining. Enzymic Oxidation of Catechol to Diphenylenedioxide-2,3-Quinone 422
Robert C. Smith and W. D. Salmon. Nucleic Acid Levels in Livers of Rats Fed Diets Deficient in Choline or Containing Ethionine 428
Alfred Chanutin and Richard R. Curnish. Factors Influencing the Electrophoretic Patterns of Red Cell Hemolyzates Analyzed in Cacodylate Buffers 433
G. V. Vahouny, C. R. Borja and C. R. Treadwell. Absorption and Esterification of Micellar Free and Esterified Cholesterol-4-C^{14} 440
N. Fausto, T. Uchiyama, and J. L. Van Lancker. Metabolic Alterations after Total Body Doses of X-Radiation. Effect of Irradiation of Normal Liver on DNA Synthesis after Partial Hepatectomy 447
A. Gomez-Puyou, W. Feder, M. Tuena, and A. Pena-Diaz. The Effect of Triamcinolone and 2,4-Dinitrophenol on the Adenosinetriphosphatase Activity and the P^{32}-ATP Exchange Reaction of Fresh Liver Mitochondria 455
A. Peña-Díaz, C. Campillo-Serrano, M. Tuena, and A. Gómez-Puyou. Effect of Sodium and Potassium on Mitochondrial Adenosinetriphosphatase Activity 461
Kinjiro Miyagawa, Kiyotoshi Sannoe, and Keizo Suzuki. Studies on Taka-Amylase A under High Pressure Treatment. II. Recovery of Enzymic Activity of Pressure Inactivated Taka-Amylase A and Its Enhancement by Retreatment at Moderate Pressure 467
Trieste G. Vitti, Robert Vukmirovich, and O. H. Gaebler. Utilization of Ammonia Nitrogen, Administered by Intragastric, Intraperitoneal, and Subcutaneous Routes: Effects of Growth Hormone 475
Graham Rogeness and L. G. Abood. The Action of Calcium and Anticholinergic Psychotomimetic Agents on Surface Films 483
Vítěz Kalous and Zdeněk Pavlíček. Haptoglobin Properties of a Serum M-2 Component 489
Sergio Estrado-O. The Release of Mitochondrial Enzymes by Uncoupling Agents 498
William A. Atchley and N. V. Bhagavan. Saline-Soluble Preparations of Deoxyribonucleoproteins 505
H. N. Munro and E. D. Downie. Extraction of Protein from Tissues During Treatment with Organic Lipid Solvents 516
Letters to the Editors
W. D. Alexander and J. Wolff. Cation Requirements for Iodide Transport 525
V. S. Gupta and F. M. Huennekens. Reaction of Biological Alkylating Agents with Reduced Vitamin B_{12} 527
Author Index 529
Subject Index 531
